

CIOB Site Construction Qualifications

Creating the experts of the future

We are the Chartered Institute of Building, and we stand for the science, ethics, and practice of built environments across the world.

Everything we do is to improve the quality of life for those using and creating the built environment. We have a role in the management, leadership, education, and development of our industry, guiding and supporting our members during their careers.

The achievement of professionalism at all levels within our industry is at the core of our work. We are proud to have developed a framework of vocational qualifications that are a mark of the highest level of competence and professionalism, and a great way to progress to senior management roles in construction and onto professional CIOB Membership.

Our **Site Supervisory and Site Management** professional qualifications are designed to aid site operatives, skilled tradespeople, and apprentices with the tools and knowledge to deliver complex projects safely and effectively, as well as the skills to manage people, activities, and processes on construction sites, reflecting the needs of our industry today.

Start your learning journey today:

Site Supervision

CIOB Level 3 Diploma in Construction Site Supervisory Studies

This Level 3 Diploma provides an important route into a supervisory role for experienced site workers, who are currently working in or progressing to a site supervisory role.

The qualification will develop your knowledge and skills to supervise work on construction projects of any type and size safely and efficiently. It is also a suitable course to gain the Academically Qualified Person's Card (AQP Card).

Site Management

CIOB Level 4 Certificate in Construction Site Management

The CIOB Level 4 Certificate in Construction Site Management is perfect for supervisors and assistant site managers who are progressing into a construction site manager role.

Undertaking this qualification will give you the tools and knowledge to plan and programme projects, liaise with stakeholders, and oversee small to medium construction projects safely and efficiently. You can also gain the Academically Qualified Person's Card (AQP Card).
